Executive Director Report

Ms. Dowd announced that the Consortium staff is now onsite at the new headquarters located at 408 E. Upland Road in Cayuga Heights.

Ms. Dowd said that Excellus has recently dropped the blackout period for open enrollment, so data entry can be resumed by the municipalities and should be completed before the end of the year.

Ms. Dowd announced mailings were sent out regarding the transition from ProAct to Excellus. She said mailings also included new ID cards, and advised to remind members that they would need to bring their cards to the pharmacy after January 1,2024 as the new ID cards also contain the updated BCBS BIN# reference numbers for the new coverage.

Discussion – Investment Resources Utilizing Wilmington Trust and NYCLASS

Ms. Dowd said the Consortium meets with Wilmington Trust on a quarterly basis regarding performance and upcoming notes coming due. She said that when certain notes come due, the Consortium has been moving some funds over to NYCLASS. She said that NYCLASS has had better returns recently between 4-5% and NYCLASS also gives an opportunity for the Consortium to easily access funds.

Mr. Hart suggested that the Consortium house most of the monies in NYCLASS as returns are better than Wilmington Trust. He said some additional research is needed but would consider maintaining a relationship with Wilmington Trust if they can secure something with a 5 to 10-year duration with a decent locked in rate. He also suggested the possibility of a new policy, which may indicate how much per institution and would also research what the County's policies may be and how much percentage they must have in their unencumbered balance.

Ms. Anderson said that even though the investments are the same type, it may be wise to keep monies in two places in the event there was a government shutdown. She also suggested receiving Wilmington Trust's current rates for the Committee's review.

Ms. Dowd and Ms. Apalovich both agreed that it is not easy to pull liquid funds from Wilmington Trust and will continue to research rates and information with Wilmington Trust. Ms. Dowd said the Consortium will come up with a recommendation for an investment policy statement or an amendment to our investment policy statement for the committee to consider at next month's meeting.

RFP Updates

Ms. Dowd stated an RFP for an auditor vendor was prepared, but not posted online due to staff time constraints of the ongoing Department of Financial Services (DFS) audit. It was a concern that staff would not have the time to manage the incoming bids during the audit. Because of this time constraint and scarce availability of municipal auditors at the beginning of the calendar year, Insero was asked to provide a quote. The Consortium has not heard back from Insero yet, but Ms. Dowd said the Consortium will have more details to provide at the next committee meeting.

DFS Examination Exit Meeting Feedback

Ms. Dowd said that the Consortium had the first exit interview with DFS where they advised they are no longer in the examination process, but currently in the feedback process. The Consortium has received 11 items of recommendations, which have included changes to policies and practices.

Items included, but not limited to:

- Separation of the Audit and Finance Committees
- Board members to attend all board meetings
- Fill all labor seats
- Adjudication with Excellus regarding COVID
- When determination letters should go out on appeals and how they are managed
- Cybersecurity focus

Ms. Dowd said that an exit letter will arrive after the holidays. Once that letter is received, the Consortium will have 15 days to respond, and a closing conference will be held. DFS advised the Consortium that the audit was a very clean audit and the Consortium, as well as vendors, were able to secure the information that DFS needed on a timely basis.

Resolutions:

RESOLUTION NO. XXX- 2023 – AUTHORIZATION TO ENTER INTO AN AGREEMENT WITH FOXPOINTE SOLUTIONS FOR SUPPORT WITH CYBERSECURITY

Ms. Dowd explained there has been a recommendation to seek additional support to the Consortium's cybersecurity program efficacy, data security, overall cyber risk management, and assessment of the Consortium's third-party vendors. These recommendations come from DFS and include upcoming changes to New York State Laws in this area. The Consortium reached out to Tompkins County's Information Technology (IT) Department for guidance. Tompkins County IT advised that they do not have the manpower to facilitate cyber security attestation and testing and recommended Foxpointe to the Consortium.

Ms. Dowd also said that she did reach out to the Consortium's attorney, John Powers, to advise if the Consortium was exempt from New York State's Section 500 Rules pertaining to Cybersecurity. Mr. Powers advised there are a few items the Consortium is exempt from; however, the Consortium does need to continue reporting most items of the State's Section 500.

MOVED by Mr. Salton, seconded by Mr. Snow, the resolution was unanimously adopted by voice vote of members present, and visibly seen members via remote locations due to extraordinary circumstances.

MOVED by Ms. DeVoe, seconded by Mr. Hart, the resolution was unanimously adopted by voice vote of members present, and visibly seen members via remote locations due to extraordinary circumstances.

Financial Update

Abstract Approval

Ms. Apalovich presented the named October 13 - November 30, 2023 financial abstract; It was MOVED by Mr. Shattuck and seconded by Mr. Snow, and unanimously adopted by voice vote by members present and via remote, to approve the October 13-November 30, 2023 abstract. MOTION CARRIED.

Budget Performance Report/Report on Large Loss Claim Activity

Mr. Pelton and Mr. Spenard referred to the monthly <u>Budget Performance Report</u>, as of October 31, 2023 and covered the following key facts:

- 1. Total Income was 0.18% below the amended budget for the first 10-months of the fiscal period. The amended budget reflects the changes in plan designs by participants as well as the additions of new members municipalities.
- 2. The number of contracts insured by the Consortium increased by 9.10% and the number of covered lives grew by 9.39%, primarily as the result of adding new municipalities to the Consortium.
- 3. The paid claims which collectively include medical, prescription drug, CanaRx and pre-paid claims account for 94.72% of the total expenses of the Consortium through the first 10-months of 2023. We show the overall paid claims to be 6.21% (including the advanced deposit for prepayment of claims) over budget for the 2023 Fiscal Year to Date, based on the amended budget as adjusted for the movement of contracts to other benefit plans and with the new municipal partners added to the program.
- 4. As of October 31, 2023, the Consortium lowered its specific stop-loss insurance premium by approximately \$1,893,709.88 and it has incurred large loss claims between \$500 thousand and \$1 million totaling \$1,494,480.16. As of October 31st, the net gain on this pool, excluding 2023 investments, is \$399,229.72. This amount will be reduced each month by any chargeable loss as well as each monthly stop-loss premium made by the Consortium. It is important to remember that this figure does not take into consideration that the pool is also picking up an extra \$100,000 in risk per member annually.
- 5. The net cash assets (unencumbered fund balance) as of October 31, 2023, equals 11.15% of premium revenues. This includes full funding of the Rate Stabilization Reserve at 7.5% of Expected Paid Claims and adjusting the Catastrophic Claims Reserve to \$4.81 million.

Executive Director Report February 2024

Not many committees have met yet this year. Therefore, this update will provide a general review of projects in process at the Consortium.

The Finance Committee will meet later this week to review year-end results and amend the budget as necessary. Due to higher-than-expected claims experience, we ended 2023 on a negative note. The unaudited financials show we missed the budget by more than \$4M. Fortunately, our reserves are funded at a level to absorb this loss and 2024 experience has cooled off a bit from the higher-than-expected claims experience in 2023.

The transition to our new pharmacy benefit manager, Excellus, was complete on January 1, 2024. Most of our members received their cards on time, and after reading numerous announcements from the Consortium and Excellus, they were well prepared for the transition. Other than a few minor glitches, the move has been seamless and access to care remains constant.

We are still looking for a few municipalities to send in their 2023 signed MCA with supporting municipal resolution so we can close our files on that update and receive our new Certificate of Coverage. We are in the process of now securing approval from our members for the 2024 MCA update. We are hoping this will be the last time we will have to do back-to-back approvals. Unfortunately, the Department of Financial Services' request to update 2023 with new wording caused some confusion and made municipalities feel like the second request was redundant. The Consortium is working with our attorney to see if we can create a more efficient way of completing this requirement.

The staff also continues to work with the Department of Financial Services to update our Summary Plan Descriptions. We have posted on our website the 2023 plan summary drafts that are pending approval with the Department of Financial Services.

The Department of Financial Services audit for the years 2016 – 2021 has concluded and we are waiting for the formal Exit Audit Letter to be sent to the Consortium. When we receive the letter, and close the audit, we will forward a full report to our members.

The Executive Committee will be reviewing Strategic Planning Initiatives at our next meeting. The review will include agreeing on growth initiatives and how the organization will react with a larger risk pool. Included in the conversation will be a continued discussion on data related to premium equivalent rates and offering a four-tier premium model. Discussions include whether or not we would like to change our model and what an implementation plan would look like if we did.

Within the next month, the Claims and Appeals Committee will meet to review the medical claims audit conducted for the years 2020 and 2021. The audit presented minimal concerns about claims adjudication and a follow up meeting with Excellus helped confirm any misconceptions about plan discrepancies.

Several of our members and vendors have asked if we will be hosting an Open House at our new facility. Therefore, plans are being made to host an event prior to the May 2nd Joint Committee on Plan Structure and Design meeting. Save the date invites will be sent out shortly.

GTCMHIC Procurement Policy

Adopted April 17,2024

All procurements made by the Greater Tompkins County Municipal Health Insurance Consortium ("Consortium") involving the expenditure of the Consortium funds will be made in accordance with the following procurement standards.

The Executive Director shall have responsibility for all Consortium purchasing and bidding.

Purchases will be reviewed by the Consortium Treasurer to prevent duplication and to ensure that costs are reasonable.

It is the policy of the Consortium to provide equal opportunity to all qualified suppliers. The principle of public purchasing is to obtain goods and services equitably through open competition at the <u>least cost best value</u> to <u>the taxpayer our members</u> while serving the interest of the Consortium.

Consortium procurement shall operate in full view of all members.

I. METHODS FOR PROCUREMENT

Procurements shall be made according to the parameters set forth in Tables A and B using one of the following methods:

A. Verbal or Written Quotations

Purchases costing up to \$53,000 may be made by authorized purchasers using the purchaser's best discretion with expense(s) to be directly paid or reimbursed by the Consortium upon receipt of a valid proof of purchase (i.e. receipt or invoice). Efforts will be made to get the lowest and best price, but written documentation is not required.

Purchases which cost between \$53,000.00 and \$19,999.99 require at least two written quotes. A memorandum shall be prepared detailing the date of contact, company name, contact person, pricing, and delivery terms. Purchaser shall make every attempt to ensure fair and competitive pricing.

Purchases of supplies, equipment, and professional services between \$240,000.00 and \$49,999.9920,000.00 require written quotations. Reasonable attempts shall be made to obtain a minimum of three responses. Documentation detailing such attempts shall be prepared and filed with the paid bill file.

B. Bids or Request for Proposals

Bids will be sought for purchases of goods or equipment that exceed \$520,000. Detailed specifications will be developed for approval by the Consortium prior to posting on the appropriate website(s). Bids shall be awarded to the lowest responsible bidder(s) meeting all specifications with acceptable deviations. Bids shall be awarded by the Executive Committee unless specifically required to be awarded by Board of Directors.

Request for Proposals shall be sought when the cost for services is expected to exceed \$520,000. Specifications shall be developed and approved by the Consortium prior to posting on the appropriate website(s). As a general rule, Request for Proposals shall be posted on the appropriate website(s) for a minimum of twenty-one days. The Executive Committee shall authorize the award and contract for the requested service(s).

The Consortium reserves the right to postpone bid openings for its own convenience and to make changes to the specifications.

Per NYS General Municipal, State and Local laws, the Consortium may award a Bid to a vendor and/or contractor offering the "Best Value" to the Consortium. "Best Value" allows the Consortium to participate in bids let by National Cooperatives and other government agencies that have awarded contracts through this method if it proves to be in the best interest of the Consortium and member taxpayers.

Request for Proposal specifications shall detail the following:

- Scope of Services
- Evaluation Criteria
- Project Schedule
- Contract Term

Contract shall be awarded to the offerer that submits the proposal determined to be in the best interest of the Consortium once proposals have been reviewed and, if needed, negotiated. Written evaluations of each response must be provided.

The Consortium reserves the right to reject all proposals, to negotiate with an offeror, and to solicit new Request for Proposals if determined to be in the best interest of the Consortium.

II. CONTRACTS

Generally, all procurement involving services will require a written description of the service or, when applicable, a written contract.

A contract for professional services shall be for up to three years with the option to renew for an additional two years.

All contracts shall contain a cancellation clause which allows the Consortium to cancel any contract for cause.

All contracts shall contain a cancellation clause which allows the Consortium to cancel any contract without cause with either a 30- or 60-day notice.

All contracts shall contain indemnification and hold harmless language and shall state required insurance coverage as deemed sufficient and appropriate by the Executive Committee.

III. DOCUMENTATION

Supporting documentation for purchases that do not require bidding or seeking proposals shall be retained and filed by the Executive Director or designee-Finance Manager.

All bid and proposal responses shall be filed and maintained in accordance with the New York State Records Retention laws.

IV. GUIDELINES FOR WRITING A REQUEST FOR PROPOSAL ("RFP")

These guidelines shall be followed with securing a bid through the RFP Process:

Include Rules for Submitting a Proposal – The rules for submitting a proposal (instructions) must be included in the specifications. Respondents will need to know who, where, how (format) and when to submit their response.

Make it a Performance Specification – Describe the performance desired rather than specifying the exact goods or services that are required. For example, a janitorial contract for providing a "clean work environment" should outline the program goals and ask for the qualifications of the Respondent's personnel rather than telling them the number of people needed to perform the work, their required qualifications, or the number of times they must perform certain tasks.

*Keep it Non-*Proprietary – Do not specify the service so narrowly that it fits only one provider.

Disclose the Contract Term – In the Statement of Work explain the term of the contract.

Disclose Award Criteria & Weights – Disclose the criteria that will be used to evaluate the proposals and the weight that will be given to each criterion. This lets the Respondents know what is important and how their proposals will be judged.

Require Only What Will be Evaluated – Do not ask for information that will not be considered in making the award and that will contain a cost to the Respondent to provide (such as financial statements). The Respondents will pass along that cost to you in their proposals so ultimately you would pay for something you did not intend to use.

Do Not Over Specify – Do not ask for services that are not necessary. If you are not willing to pay for additional services, do not include them in the specifications unless you include them as "options". To avoid the appearance of an arbitrary award, identify the priority of options that will be selected if funds are available. For example: "within budgetary limits, options will be awarded in the following priority: A, B, C, and F."

Hold a Pre-Solicitation Conference if Necessary – A pre-solicitation conference may be necessary to give Respondents a chance to clarify the specifications and propose changes or corrections to them.

V. EMERGENCY PROCUREMENT

In the case of a public emergency, as declared by the Federal, State or Local authorities, and affirmed by the Consortium Executive Committee, goods and services exceeding the bid limits may be procured without competitive bidding.

The Executive Director is hereby authorized to award bids during such a declaration of emergency. Notification of such awards shall be provided in writing to the Executive Committee.

In cases where an emergency exists and a part, repair person and/or services are needed to make equipment operational and can be obtained immediately, the Executive Director or designee(s) should do the vendor research, locate the part or service needed and place the order.

VI. BEST VALUE

All awards may be made to a vendor and/or contractor offering the "Best Value" to the Consortium.

The Executive Committee or their designee will have the final approval when using "Best Value" and determine when its use would be appropriate and which criteria to use.

Award Criteria:

In determining the "Best Value" for the Consortium, the purchase price and whether the goods or services meet specifications are the most important considerations. However, the Executive Director or their designee may consider other relevant factors, including but not limited to:

- Installation costs;
- Life cycle costs;
- · Quality and reliability;
- Delivery terms;
- Cost of employee training associated with a purchase;
- Effect of a purchase on productivity;
- Indicators of probable supplier performance under the contract such as past supplier performance, the supplier's financial resources and ability to perform, the supplier's experience or demonstrated capability and responsibility;
- Ability to provide reliable maintenance agreements and support;
- Ability to comply with state, federal, or other requirements linked to funding sources for specific projects including but not limited to MWBE participation, Section 3, Davis-Bacon, previous violation of federal or state labor standards, conflicts of interest, and equal employment opportunity.
- Business Enterprise status (e.g. DBE, MWBE, SDVBE);
- Other factors relevant to determining the best value for the Consortium in the context of a particular purchase, including the status of the vendor as a The Greater Tompkins County Municipal Health Insurance Consortium based business.

VII. SOLE SOURCE

Sole Source is an item or service that is available from only ONE source and there is no substantial equivalent or comparable item (s) in existence. An item cannot be created as a Sole Source by developing restrictive specifications. The product/service must have differentiation that makes it unique. The uniqueness must be demonstrably of real importance and benefit in the way the end item/ service is to be used.

In determining the "Sole Source" product/service for the Consortium, a memorandum of support will be created by the Executive Director and kept on file that details each of the following:

- Explain in detail why this product/service is the only one on the market that can satisfy the needs of the Consortium
- Explain why there are no alternatives, or the alternatives are not acceptable.
- Explain why the manufacturer/supplier or goods/service provider are the only available source to obtain the product or service, describing what research has been done to make sure this is truly a sole source.
- Explain why the price for this product/service is considered reasonable.
